Collaboration & Remote Operations: Slack, Zoom, Microsoft Teams, Google Meet, WhatsApp Business; working proficiency with AI-assisted research and drafting tools (ChatGPT, Claude, Gemini)

PROFESSIONAL EXPERIENCE

Operations & Administrative Consultant — Self-Employed (Remote)

2022 – December 2025

Built and ran an independent operations and administrative consulting practice, delivering executive support, reporting systems, and process improvements for organizations in consulting, IT, and logistics — retained long-term across all engagements through consistent delivery and confidentiality.

- Managed executive calendars and full logistics for recurring corporate training programs held 2–4 times monthly across a multi-year engagement.
- Developed SOPs and workflow documentation that reduced operational bottlenecks across client deliverables.
- Oversaw full office management for a 10-person IT firm, including documentation, scheduling, vendor coordination, and internal communications.
- Flagged an overpriced vendor through monthly reporting, prompting a switch to a more cost-effective provider and a related role reassignment — reducing associated costs by over 15%.
- Redesigned driver onboarding around accountability — requiring a guarantor and 50% at-fault repair cost-sharing — which reduced recklessness and vehicle damage compared to the prior driver pool.
- Standardized vehicle maintenance with genuine OEM parts and introduced a weekly top-performer incentive; enforced GPS-tracking policy for immediate vehicle retrieval on unauthorized interstate use.
- Built Google Drive/Dropbox filing systems across client accounts, cutting document retrieval time by 40%.
- Reduced report drafting turnaround by 30% through AI-assisted workflow optimization.

Independent Projects — Self-Directed Development (2026)

- Job Radar: automated job-aggregation tool built with GitHub Actions and OAuth integrations, deployed and live at handyofmen.github.io/job-radar.
- WriteAssist: self-built writing assistant with cloud sync, deployed as an installable web app.
- Study Timer & OCR/PDF Converter: self-built productivity tools, deployed as installable web apps.
- Ongoing hands-on work with Trello, Slack, Notion, and Asana; coursework via Coursera, the MTN Skills Program, and Udemy.

Administrative Officer | ENYO Retail and Supplies

2019 – 2021 | Lagos, Nigeria

- Served as the central communication bridge between field teams and senior management across multiple locations.

- Reduced management reporting errors by 20% by introducing standardized templates and structured verification workflows.
- Owned daily cash reconciliation and inventory tracking across multiple retail locations for two years, a core control point in the store's financial reporting process.

Customer Relations Officer | Elkris Bio-Health Foods Nig. Ltd

2018 – 2019 | Lagos, Nigeria

- Handled 30+ customer interactions daily across phone, email, and in-person channels as the primary point of contact for service resolution.
- Introduced a complaint follow-up system that reduced repeat complaints by systematically addressing root causes.
- Coordinated sales/management meetings, distributing agendas, minutes, and action points within 24 hours.

ADDITIONAL EXPERIENCE

Supervisor & Technical Support Officer — Everlasting Business Venture, Lagos, Nigeria | 2008 – 2018. Supervised daily press operations and a team of 10+ operators; managed equipment maintenance scheduling and cross-team workflow coordination.
