Hiring Manager

[Company Name]

[Company Address / Remote]

Dear Hiring Manager,

I am writing to apply for the Customer Service / Customer Relations role at [Company Name]. With 7+ years of direct customer-facing experience across FMCG, consulting, IT, and logistics, I've built a career around one outcome: problems resolved at first contact and service quality that holds up under pressure.

As a Customer Relations Officer at Elkriss Bio-Health Foods, I managed 30+ daily customer interactions across phone, email, and in-person channels with zero escalations recorded throughout my tenure. I built a complaint follow-up system from scratch that identified root causes and measurably reduced repeat complaints — because real customer service removes the reason the ticket was raised in the first place.

From 2022 to December 2025, I provided concurrent EA-level support to three remote clients, serving as the primary client-facing contact in each case, with zero missed deadlines and full retention by all three clients over three years. I reduced document retrieval time by 40% through structured digital filing systems and developed communication SOPs that improved response turnaround.

At ENYO Retail and Supplies, I reduced reporting errors by 20% through standardised templates and maintained 100% cash reconciliation compliance. Earlier, I led a team of 10+ operators at a commercial printing press for a decade, building the discipline and people-management foundation behind every client relationship since.

I'm proficient in HubSpot CRM, Microsoft Office, Google Workspace, Slack, and Teams, hold a Virtual Assistant Certification from ALX Africa, and use AI tools (ChatGPT, Claude, Gemini) to respond faster without losing quality. I am immediately available, open to remote, hybrid, or on-site roles, and would welcome the chance to discuss how I can contribute to your team and your customers' experience.

Warm regards,

Silas Andy Aniekan

Customer Service & Relations Professional | ALX Africa Certified VA
